WOW! I am shocked beyond belief that the AG letter states in the second paragraph that "based on recent information from the UW that they have now abandoned plans to provide later-term abortions at MSC." Could someone please enlighten me as to who is the origin of that statement?

Hi,

I just got a call from Lisa Subeck, Executive Director of NARAL Wisconsin. She wanted to see if there was any basis for the Pro-Life Wisconsin press release, and was also specifically wondering about the letter from the Attorney General's office which states that we have informed DOJ that we have "abandoned our plans to provide late-term abortions at MSC." I shared with Lisa the statement below that we have been giving to the media. That made her certainly feel better.

Thanks, Shiva
